

I am against approval of LPFM stations because K-LOVE provides the type of music and programs that I like to listen to. It does not have all the disgusting commercials and foul language from artists and announcers. It provides me with inspiration and support to deal with life. At a stage of my life that was very uncertain and full of turmoil, I received a phone call from K-LOVE asking if there was anything they could pray about for me. I also know that at anytime I can call them and request prayer. Without their signal on the air through translators, I would not know this help was available to me.

I believe the effect on my community would be negative because K-LOVE is the only christian programming we can receive because of our rural location. It may be possible to get satellite radio but that is an expensive solution that most people I know (myself included) cannot afford.

We live in a time where there is not much positive influence in our lives. To lose one of the few things that is and has been a positive influence in the lives of people would be a great tragedy.

K-Love is the station I go to sleep with at night and wake up to in the morning. When I am unable to receive K-LOVE's signal, I miss it. I can see a difference in my attitude and the way I treat those around me without it. To possibly lose K-LOVE to an LPFM station would create a BIG void in my life. In closing, I would hope that the LPFM service would not be expanded and allowed to take priority over any current FM translator service.

A Faithful K-LOVE Listener
